Bharathsimha Reddy Putta

Automation, AI & ML Engineer · Generative AI · Agentic AI · Voice AI

SUMMARY

AI engineer building practical AI systems that move beyond chat interfaces — agents that understand business context, interact with enterprise systems and execute real-world tasks. Hands-on across real-time voice AI, agentic workflows (LangGraph, LangChain, MCP), document AI and production backends (FastAPI, Celery, Docker), from architecture through deployment.

EXPERIENCE

Automation, AI & ML Engineer
Jun 2026 – Present

Jane · Bengaluru · On-site

- Design and build AI-powered automation for supply chain, customer onboarding, vendor onboarding and sales operations.
- Develop real-time voice AI with streaming audio, speech-to-text, text-to-speech and full-duplex interaction.
- Build AI agents that understand business context and execute tasks across integrated systems, with human-in-the-loop controls.
- Backend services, REST APIs, async workflows with Celery, Dockerised services and event-driven automation pipelines.
- Integrate Zoho CRM, Zoho Books, Zoho WorkDrive, email and telephony platforms; automate KYC, document processing and email classification.

Generative AI Engineer
Nov 2025 – May 2026

Aiqwip · Bengaluru · Full-time

- Built end-to-end multimodal AI systems, agentic workflows and automation platforms with LangGraph, LangChain, MCP and local LLMs (Ollama, llama.cpp).
- GhostAgent – DataRipple: real-time conversation intelligence that extracts entities and intent from live sales calls and syncs to 20+ CRMs via MCP tools.
- AI Medical Avatar: real-time voice avatar for medical candidate training (Deepgram STT → LLM → TTS).

AI / ML Engineer (Freelance)
Apr 2024 – Oct 2025

Self-employed · Remote

- Built real-world ML, deep learning and generative AI projects; trained, evaluated and deployed models, data pipelines and APIs.

Data Scientist Intern
Apr – May 2025

EISystems Technologies · Remote

- Data cleaning, analysis and predictive models with Python and SQL.

Web Developer Intern
Nov – Dec 2023

VaultofCodes · Remote

- React front-ends with Node.js/Python back-ends; integrated AI chat features.

SELECTED PROJECTS

AI Supplier Intelligence Platform · Jane (team) — Parts request in plain text → AI-extracted requirement → search across own directory, web, marketplaces and stock lists → supplier sites and PDFs read for certifications → every lead scored with evidence links. Multi-tenant workspaces, Google/Zoho sign-in, 2FA, audit trail.

Python · FastAPI · PostgreSQL · React · TypeScript · Celery · Redis · Docker · Claude

AI Sales Call & Onboarding Engine · Jane (team) — Click-to-call from the lead sheet, Deepgram live transcription, intent/objection detection, automatic onboarding, KYC and NDA follow-ups, and AI call grading.

Python · VoIP · Deepgram · LLMs · Zoho CRM

Autonomous AI Hiring Platform · Jane (team) — Zoho Recruit integration, AI resume parsing and scoring, live 20-minute duplex AI video interviewer with a digital avatar, automated summaries and scheduling.
Python · FastAPI · Zoho Recruit · Deepgram · LLMs

Supply Chain SaaS · Customer & Vendor Onboarding AI · Jane (team) — AI order analysis, RFQs and quote comparison; KYC, document AI/OCR, NDA generation, negotiation and e-signature with Zoho CRM/Books provisioning.
FastAPI · Next.js · LangGraph · Celery · Redis · PostgreSQL · WebRTC · OCR · Kubernetes

DragAI — Agentic AI Workflow Platform · Open source — Drag-and-drop builder with 77+ nodes for LLMs, RAG, ML and data; multi-LLM agents (OpenAI, Gemini, Claude, Cohere); live execution and debugging. GitHub
React · React Flow · Node.js · Python · LangChain · MongoDB · Neo4j

AI-MCP Orchestrator · Codely Voice Assistant · Agentic Graph RAG · Open source — 17+ MCP tools with LangGraph routing; local voice assistant with LangGraph intent routing; OCR → knowledge-graph RAG service. GitHub
LangGraph · FastMCP · Gemini · LangChain · Ollama · Neo4j

SKILLS

AI & agents	Generative AI, Agentic AI, LangGraph, LangChain, MCP / FastMCP, RAG, LLMs (Claude, Gemini, OpenAI), Ollama, llama.cpp, Hugging Face
ML & vision	PyTorch, TensorFlow, scikit-learn, OpenCV, MediaPipe, CNN/LSTM, MLflow, DVC, OCR
Voice & real-time	Deepgram, Whisper, WebRTC, WebSockets, VoIP, Twilio, Vonage, STT/TTS, AI avatars
Backend & data	Python, FastAPI, Flask, Django, Celery, Redis, PostgreSQL, MongoDB, Neo4j, SQL, Pandas
Cloud & web	Docker, Kubernetes, AWS, OpenTelemetry, GitHub Actions, React, Next.js, TypeScript, Zoho CRM/Books, Salesforce, HubSpot

EDUCATION

B.Tech, Computer Science (AI & ML) — Siddharth Institute of Engineering 2021 – 2025
CGPA 8.62 / 10 · Capstone: Speech Emotion Recognition
